

Gemstones and Ores

Roll 1D100

-Or-

Look up the appropriate category and roll 1D20

-Or-

Within each category all items are sorted by price - 1 being cheapest, 20 being most expensive.

Ersatz Mineral - man-made, fake stones. Typically given a flavorful name to sound expensive, these are often glass or cheap stones with dye treatments.

50cp - 25sp (cm³)

Stone - Large naturally formed rocks, might be used for cavern walls, statues buildings or altars.

20sp - 50gp (m³)

Ores - Rocks that metals are extracted from, ores can be cavern formations or dug-out mines.

1gp - 1000gp (m³)

Semi-Precious - gemstones that can be transparent (Crystalline) or opaque (Microcrystalline) and are generally more common than Precious Gemstones.

10gp - 100gp (cm³)

Precious - Expensive or rare Gemstones- often with clear crystal formations.

500gp - 5000gp (cm³)

Ersatz Mineral

01. Gold Obsidian - yellow glass
02. Clear Obsidian - clear glass
03. Emerald Obsidian - green glass
04. Ocean Obsidian - green-blue glass
05. Sapphire Obsidian - blue glass
06. Vermillion Obsidian - bright red glass
07. Wine Obsidian - deep red glass
08. Royal Obsidian - purple glass
09. Fire Jade - poor-quality opals, sometimes glass
10. Beach moonstone - Quartz

14. Fairy Agate - bright agates, dyed
15. Turquoise - Dyed Howlite stone
16. Rainbow Hematite - Hematite treated with a colorful coating
17. Magnetic Hematite
18. Opalite
19. Zandrite
20. Slocum Opal

Stone

21. Feldspar
22. Riverstone
23. Mica (flaky, thin sheets)
24. Granite
25. Sandstone (may have fossils)
26. Limestone (may have fossils)
27. Basalt
28. Slate (may have fossils)
29. Soapstone
30. Hornfels (very tough)
31. Marble
32. Rhyolite
33. Chert
34. Jet (gemstone form of coal)
35. Bloodstone (green with flecks of red)
36. Labradorite (Iridescent blue)
37. Lodestone (magnetic)
38. Petrified Wood
39. Charoite
40. Alabaster

Ores

41. Tetrahedrite 32% Copper 10% Iron
42. Chrysocolla 34% Copper 2% Aluminum
43. Bismuthinite 81% Bismuth
44. Malachite 58% Copper
45. Siderite 49% Iron

46. Covellite 67% Copper
47. Limonite 60% Iron
48. Cuprite 88% Copper
49. Hematite 70% Iron
50. Nickeline 44% Nickel
51. Magnetite 72% Iron
52. Cassiterite 79% Tin
53. Cobaltite 36% Cobalt
54. Chromite 46% Chromium 25% Iron
55. Galena 87% Lead 2% Silver
56. Bauxite 45% Aluminum
57. Acanthite 87% Silver
58. Krennerite 43% Gold
59. Native Gold 99% Gold
60. Sperrylite 57% Platinum

Semi-Precious Gemstone

61. Quartz
62. Rose Quartz
63. Garnet
64. Amethyst
65. Blue Lace Agate
66. Onyx
67. Carnelian
68. Peridot
69. Moss Agate
70. Fluorite
71. Citrine
72. Kyanite
73. Fluorite
74. Spinel
75. Tiger's Eye
76. Dragon's Eye
77. Hawk's Eye
78. Moonstone
79. Turquoise
80. Tourmaline

Precious Gemstones

81. Topaz
82. Tanzanite
83. Larimar
84. Taaffeite
85. Sapphire
86. Emerald
87. Demantoid Garnet
88. Benitoite
89. Padparadscha Sapphire
90. Ruby
91. Blue Paraiba Tourmaline
92. Jeremejevite
93. Bixbite
94. Jadeite
95. Alexandrite
96. Clear Diamond
97. Painite
98. Musgravite
99. Blue Diamond
100. Pink Diamond
